

The Honourable Deputy Commissioner for India in UK visits VST's pavilion at Birmingham Exhibition

VST Precision Components Division participated in the 'SUBCON 2015' held on 2nd to 4th of June 2015 at National Exhibition Centre, Birmingham UK.

The Precision Components Divisions manufactures Engine Components for Tillers and Tractors as well as for components for Export markets.

The parts like Crankshafts, Conrods, Camshafts were on display with a view of attracting new customers from overseas markets.

VST's component quality was well appreciated by the business visitors and has generated good response from the industry buyers.

Indian Deputy High Commissioner in UK, **Dr Virander Paul** visited VST's pavilion and was appraised about VST's export to UK. The diplomat urged

VST to explore further business potential in UK and scout for 'Make in India' partners.
