COMPANY'S PERFORMANCE

The Financial Year 2013-14 was a record setting year for your Company. The turnover for the year registered an increased by 30% from Rs.480 crores in 2012-13 to Rs.623 crores while the operating profit increased by 65% from Rs.72 crores to Rs.119 crores. The EBITA margin rose to 20% due to steady raw material costs and higher realisation on products during the year. Profit after tax grew significantly to Rs.83 crores, an increase of 71% over the previous year and earnings per share during the year increased from Rs.56 to Rs.96. Your Company continues to be debt free and has sufficient cash flows to meet working capital requirements.

The number of Power Tillers sold during the year was 27252 units as against the previous year's 21231 units while Tractor sales were 7452 units compared to 6233 units during 2012-13. Sale of rice transplanters and reapers have made rapid strides that are highly productive and labour saving machineries.

The performance of Precision Component Division improved with export revenues almost doubling from Rs.4.6 crores to Rs.8.9 crores. Profits from exports were higher than expected due to the depreciation of the Rupee against the Sterling and Euro. This division continues to produce components largely for captive consumption and has contributed to the overall performance of your Company.

DIVIDEND:

Your Directors have pleasure in recommending a dividend of Rs.15/- per equity share of Rs.10/- each for approval at the Annual General Meeting. The dividend if declared will result in an outflow of Rs.1516 lacs including the distribution tax.

MANAGEMENT DISCUSSION AND ANALYSIS

Industry structure and developments:

During the year under review, the Indian economy grew at a sub 5% rate for the second year in a row, led mainly

by a deceleration in industrial growth and sluggish investment. High interest rates, and inflation coupled with compulsions to rein in fiscal deficit constrained the growth momentum. The agriculture sector is expected to post a moderate growth of 3.8% and was relatively insulated from the economic turmoil felt in other sectors in the economy. This segment contributes to about 16% of GDP and engages over 60% of the countries workforce. With the higher support prices for food grains, realization has improved for farmers contributing to the overall demand for mechanisation.

The Power Tiller industry which is growing at around 12% per annum largely relies on Government subsidies and agricultural lending by banks. Your company continues to maintain its lead in the power tiller industry in India and has increased its market share to 47%. Being dependent on subsidies, any delay by the government releasing subsidy coupled with policy changes in some States, impacts demand for power tillers during the peak season. Constantly working with various government schemes to capitalize on the potential demand in the paddy growing belts of the country is being pursued. The Power Tillers being imported from China by many smaller players has been steady during the year with a combined market share of around 25%.

The Indian tractor market, the largest in the world and consisting of a number of players, witnessed a strong growth of 20 per cent in 2013-14 across states, especially UP, MP, Rajasthan and Maharashtra. This growth has been fuelled by increasing rural liquidity, better realisations for the 2012-13 rabi crop and increase in minimum support prices between 5 and 20% for rice, sugarcane and cotton.

The Tractor industry sold 634151 units in the domestic market compared to 527782 units in the previous year with major manufacturers catering to various segments from 14HP to above 50HP. The strong growth potential of the less than 25 horse power (HP) category has prompted organized players to enter this segment. These tractors are used for specific applications like orchard farming, inter-cultivation, spraying in vineyards as well as for horticulture. Given the low tractor penetration in India for low HP tractors and considering 85 percent of

land holdings being small, the opportunity in this space is significant. Your Company manufactures 18.5HP and 22HP tractors and continues to maintain a significant market share in Maharashtra and Gujarat. However competition from domestic and foreign players has been gaining momentum.

OPPORTUNITIES

Agriculture which is slated to register a growth of 4% will benefit farm mechanization and provide opportunities for higher sales and optimum utilization of capacities. With the advent of urbanization and consequent rise in wages in the farm sector, augurs well for your Company's products. As the sustainability of this sector is largely government policy driven, various state and central policies are encouraging farmers to make agriculture more viable and lucrative thereby improving demand.

Presently, the market penetration for power tillers in India is low among the small and marginal farmers compared to countries like China and Bangladesh. However, with higher allocation of subsidies, scope for expanding business through strong marketing initiatives exists. Power tiller sales are predicted to increase in the coming years given its low investment and suitability for small farmers. Besides the above, government measures to increase allocation of credit for agriculture in the 12th Plan is expected to spur demand in the near future.

On the tractor front, India is a high-potential market for tractors. Various international brands are entering into the lower HP segment presently dominated by a few players. Your company's 22HP tractor model with better aesthetics has been received well in terms of performance and volumes are expected to grow in 2014-15.

RISKS AND CONCERNS

Agriculture is the backbone of India's economy. Though various irrigation schemes have been conceived to enhance the cultivable area, the agricultural sector continues to be monsoon dependent. In the current year, the possibility of El Nino phenomena may impact off take of farm equipment if the rainfall pattern changes.

Power tiller sales that are highly dependent on schemes are sometimes difficult to predict and can vary significantly from quarter to quarter. This leads to high inventory build up in some parts of the year affecting overall working capital. Besides, any reduction in the quantum of subsidy for power tillers and tractors could impact your Company's performance

Your Company's success in tractor sales requires financing support from banks and NBFC's. Continuous efforts are being made to tie up with various banks to address this issue. With rising competition, India's tractor market is expected to see more foreign brands coming in because of high growth potential with high quality products that would set greater competition.

CURRENT YEAR OUTLOOK

The Government is targeting over 4% growth for agriculture and there is clearly a need for improving agricultural productivity. Investments are expected to grow, especially in the rural sector under the 12th Five Year Plan. A favorable monsoon coupled with bank finance to farmers will have a positive influence on the power tiller and tractor industry. During the current year, your company is targeting a growth of 12% in volume of power tillers and over 40% for tractors. The steps taken to popularize Rice Transplanters in various states are proving to be successful in states like Odisha and Karnataka. Extensive work to train farmers on various aspects of adapting to mechanized transplantation is being pursued and your Company driven by these initiatives is expecting to reap rewards in the long term. The market for reapers continues to grow and though the base is small, the long term opportunities are favorable.

Your Company's state of the art Hosur plant was inaugurated on 25th April, 2014 with a capacity to produce 36000 tractors p.a. This plant has been funded through internal accruals and has commenced commercial production adopting best practices in manufacturing and has been built keeping in mind the prospect of introducing more tractor models in the future. To stay ahead in this competitive market, a series of measures for strengthening marketing has commenced specifically for tractors at all levels. This initiative will address the talent required to achieve the

Company's planned growth. It is relevant to mention, that a roadmap to building tomorrow's enterprise has started. Our Company is on a transformational journey and our focus today is to move towards higher levels of professionalism to manage the complexities and challenges of the industry we operate in.

In the recently concluded general elections, the formation of a new majority government at the centre has generated optimism in the corporate sector. In this backdrop, business sentiments are strong and the economy is likely to achieve all round progress with better governance.

TO THE MEMBERS OF V.S.T. TILLERS TRACTORS LIMITED

Report on the Financial Statements

1) We have audited the accompanying financial statements of **V.S.T. Tillers Tractors Limited** ("The Company"), which comprise the Balance Sheet as at March 31, 2014, the Statement of Profit and Loss and Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

2) Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards notified under the Companies Act, 1956 ("the Act") read with General Circular 8/2014 dated April 04, 2014, issued by the Ministry of Corporate Affairs. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

- 3. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
- 4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair

- presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements
- 5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

- 6. In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:
 - (a) In the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
 - (b) In the case of the Statement of Profit and Loss, of the profit for the year ended on that date: and
 - (c) In the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

- 7. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
- 8. As required by section 227(3) of the Act, we report that:
 - (a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

INDEPENDENT AUDITORS' REPORT

- (b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books:
- (c) The Balance Sheet, the Statement of Profit and Loss, and Cash Flow Statement dealt with by this report are in agreement with the books of account;
- (d) In our opinion, the Balance Sheet, Statement of the Profit and Loss, and Cash Flow Statement comply with the Accounting Standards notified under the Act, read with General Circular no.8/2014 dated April 04, 2014, issued by the Ministry of Corporate Affairs; and

(e) On the basis of written representations received from the directors as on March 31, 2014, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.

Note 1: Company overview

V.S.T. Tillers Tractors Limited (VTTL) was incorporated on December 18, 1967 in Bangalore, India by the VST Group, a well-known business house in South India, in technical collaboration and joint venture with Mitsubishi Heavy Industries, Japan for the manufacture of Power Tillers and Diesel Engines. The plant went into production in the year 1970.

Presently the Company is dealing with Tractor, Tillers, Diesel Engines, Harvestors, Reapers, Binders, Transplanters/planters, Trench Cutters, Front end Loaders and all kinds of allied agricultural, plantation and horticultural machinery including attachments, components, accessories, spares implements and other equipments required for the satisfactory functioning of the agricultural equipments.

Note 2: Significant Accounting Policies

a) Basis of preparation

These financial statements have been prepared in accordance with the generally accepted principles in India under the historical cost convention on an accrual basis except in case of assets for certain fixed assets which are revalued and provision for impairment is made and revaluation is carried out. These financial statements have been prepared to comply in all material respects with applicable accounting principles in India, the applicable Accounting Standards notified under Section 211(3C) of the companies Act, 1956. Pursuant to Circular 15/ 2013 dated 13th September, 2013 read with circular 08/ 2014 dated 4th April, 2014, till the standards of Accounting or any addendum thereto are prescribed by Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under the Companies Act, 1956 shall continue to apply. Consequently, these financial statements have been prepared to comply in all material aspects with the accounting standards notified under Section 211(3C) [Companies (Accounting Standards) Rules, 2006, as amended] and other relevant provisions of the Companies Act, 1956.

The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

b) Use of estimates

The preparation of financial statements in confirmity with generally accepted accounting principles in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates

c) Fixed Assets - Tangible

Fixed Assets are stated at cost net of cenvat credit less accumulated depreciation. Cost of acquisition is inclusive of freight, duties, levies and all incidental expenditure attributable to bringing the asset to its working condition for its intended use. Borrowing costs relating to acquisition of fixed assets which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Assets under installation or under construction as at the balance sheet date are shown as capital work in progress.

d) Depreciation:

Depreciation is provided on straight line method at the rates based on the estimated useful lives of the assets or those prescribed under Schedule XIV of the Companies Act 1956, whichever is higher. Individual assets costing less than Rs.5,000 are fully depreciated in the year of purchase.

Leasehold improvements are amortised over shorter of estimated useful lives or Lease period.

e) Borrowing Costs:

Borrowing costs that are attributable to acquisition construction or production of a qualifying asset are capitalized as a part of cost of such asset. All other borrowing costs are recognized as an expense in the year in which they are incurred.

f) Impairment of Assets

All fixed assets are assessed for any indication of impairment at each balance sheet date based on internal / external factors. On any such indication the impairment loss (being the excess of carrying

value over the recoverable value of the asset) is immediately charged to the Statement of Profit and Loss. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

g) Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Long-term investments are stated at cost except where there is a diminution in value other than temporary, in which case the carrying value is reduced to recognize the decline. Current investments are valued at lower of cost and fair value determined on an individual investment basis.

h) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads incurred in bringing them to their respective present location and condition. Cost of raw materials, consumables, stores and spares, trading and other products are determined on weighted average basis.

i) Foreign exchange transaction

Foreign currency transactions are recorded in the reporting currency, at the exchange rates prevailing on the date of the transaction. Current assets and current liabilities are translated at the exchange rate prevailing on the balance sheet date and the resultant gain / loss is recognised in the financial statements.

Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

In case of Forward Exchange Contracts or any financial instruments i.e. in substance a forward exchange contract to hedge the foreign currency risk which is on account of firm commitment and / or is a highly probable forecast transaction the premium or discount arising at the inception of the contract is amortized as expense or income over the life of the contract.

j) Revenue recognition

Revenue is recognized only when it can be reliably measured and it is reasonable to expect ultimate collection. Revenue from operations includes sale of goods and services is net of Excise Duty, Service tax, VAT/ CST and trade discounts.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividend is recognised when the shareholders' right to receive payment is established by the balance sheet date.

k) Retirement benefits to employees

i) Defined Contribution Plans

Contributions paid/payable to defined contribution plans comprising of provident fund and pension fund, employees state insurance etc., are charged to the Statement of profit and loss on accrual basis. The Company has no obligation, other than the contribution payable to the funds.

ii) Defined Benefit Plan

Gratuity for employees is generally covered under a scheme of Life Insurance Corporation of India, except the employees in Mysore Unit and contributions in respect of such scheme are recognised in the Statement of Profit and Loss. The liability as at the Balance Sheet date is provided for based on the actuarial valuation, based on Projected Unit Credit Method at the balance sheet date, carried out by an independent actuary. Actuarial Gains and Losses comprise experience adjustments and the effect of changes in the actuarial assumptions and are recognised immediately in the Statement of Profit and Loss as income or expense.

iii) Other Long term employee benefits

Other Long term employee benefits comprise of Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the defined benefit obligation at the balance sheet date based on actuarial valuation carried out at each balance sheet date. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss as income or expense.

iv) Short term employee benefits

Short term employee benefits, including accumulated compensated absences as at the Balance Sheet date, are recognized as an expense as per Company's schemes based on the expected obligation on an undiscounted basis.

1) Research and Development

Revenue expenditure on Research and Development are included under respective heads of expenditure. Capital expenditure on Research and Development are treated in the same manner as expenditure on other fixed assets.

m) Taxes on Income

Provision for income tax comprises current taxes and deferred taxes. Current tax is determined on the amount of tax payable in respect of taxable income for the year.

Deferred tax is recognized on timing differences being the differences between taxable income and accounting income that originate in one year and are capable of reversal in one or more subsequent years. Deferred tax assets and liabilities are measured on the timing differences applying the tax rate and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax assets are recognised only to the extent that there is reasonable/virtual certainty supported by convincing evidence that sufficient future tax income will be available against which such deferred tax assets can be realized.

n) Provisions

A provision is recognized when an enterprise has a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions, other than employee defined benefits, are not discounted to their present value and are determined based on management estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates.

o) Leases

Assets acquired under Leases, where the Company has substantially all the risks and rewards of ownership, are classified as finance leases. Such leases are capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost, so as to obtain a constant periodic rate of interest on the outstanding liability for each period.

Assets acquired as leases, where a significant portion of the risk and rewards of ownership are retained by the lessor, are classified as operating leases. Lease rentals are charged to the Statement of Profit and Loss on accrual basis as per terms of the lease.

p) Warranty

The company periodically assesses and provides for the estimated liability on warranty given on sale of its products based on past experience of claims.

q) Segment Reporting

The Company has only one reportable business segment, which is manufacturing and trading of agriculture machinery and operates in a single business segment. Accordingly, the amounts appearing in the financial statements relate to the company's single business segment.

r) Earnings per share

The basic earnings per share are computed by dividing the net profit/(loss) after tax for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per share, if any are computed using the weighted average number of equity shares and dilutive potential equity share outstanding during the year.
